

Product Bulletin Barber S-2-E Truck

This Barber S-2-E truck with split wedges and Shear Pads has been in coal service for nine years and accumulated **over 600,000 miles**

The shear pads are in excellent condition and show no signs of cracking or deformation.

Column wear plates, pocket inserts and the 945-SW's show a uniform wear pattern and minimal wear to all mating surfaces. Measurements and wedge rise indicate these snubbing components should last beyond **1,200,000 miles**.

The Barber S-2-E truck continues to deliver maintenance free performance and durability beyond 1 million miles. Specify Barber S-2-E trucks for your next new car build. See your Wabtec representative for more details!
